Career Objective

Ambitious Computer Science Engineering student with a strong foundation in core CS fundamentals, programming (Python, Java, C), and modern software development. Eager to leverage strong problem-solving skills and technical expertise to contribute to innovative solutions as part of HCL Tech's Engineering & R&D Services

Education

Computer Science and Engineering, Kalpataru Institute of Technology (Affiliated to VTU)
Current CGPA: **8.77 / 10.0**

Diploma Engineering, Sree Siddrameshwara Polytechnic
CGPA: 9.38

Skills

Technical Skills

Python, Java, C, DSA, OOPs, SQL, DBMS, Operating Systems, Computer Networks, Generative AI

Soft Skills

Communication, leadership, problem solving, team management

Projects

IntelliTrip - AI-Powered Travel Companion

- **Team Size:** 4 Members
- **Role:** Team Leader & Full-Stack Developer
- **Tools Used:** React.js, Node.js, Express.js, MongoDB, Google Maps API, Netlify
- **Outcome:** Developed an AI-powered travel planner featuring optimized itinerary data structures, modular backend architecture, and a responsive user interface with real-time API integrations.

AI-Powered E-commerce Platform

- **Team Size:** 4 Members
- **Role:** Team Leader & Full-Stack Developer
- **Tools Used:** React.js, Node.js, MongoDB(DBMS), Express.js, Generative AI, Git
- **Outcome:** Built a smart e-commerce platform with AI-powered product recommendations, automated product descriptions, and an intelligent customer support chatbot.

PropAI - AI-Powered Real Estate Intelligence Platform

- **Team Size:** 2 Members
- **Role:** Team Leader & AI/Full-Stack Developer
- **Tools Used:** React.js, Node.js, Python, MongoDB, LangGraph, LLaMA 3.3-70B, RAG, Git
- **Outcome:** Developed an AI-driven real estate platform featuring intelligent property search, investment analysis, mortgage prediction, and personalized recommendations.

Internship

Data Science and Machine Learning Intern, upSkill Campus

Collaborated with UniConverge Technologies to solve real-world data challenges using Python and MongoDB.

Machine learning Intern, IncodeVision

Machine Learning Intern at IncodeVision, working on real-world AI/ML projects and practical machine learning applications.

Certifications

Python Essentials, Cisco Networking Academy

CCNA: Introduction to Networks, Cisco Networking Academy

Full Stack Development, NoviTech R&D Private Limited

Networking Basics, Cisco Networking Academy

Oracle Cloud Infrastructure 2025 Certified Generative AI Professional, Oracle University
